

Brief consulting on career issues

Dr. Margarete Hubrath
uni-support | Institut für Hochschulberatung

Career-related individual consulting aims at helping people to better fulfill their current professional tasks or to prepare for new tasks. Topics may include, for example:

- My career goal, my vision
- Strategic career planning on the way to a professorship
- Recognizing strengths, values, and motivation
- Seeing your own potential and developing your skills
- Determination of the professional situation
- Time planning (of measures)
- Preparation for appointment procedures

In order to enable optimal use of the 25-minute consulting, participants are asked to fill out a preparation sheet on their question and send it by September 16, 2021 directly to Dr. Margarete Hubrath (hubrath@uni-support.de). Please narrow down your consulting request as concretely as possible. It can also be clarified whether and which further consulting would be useful. Every request will be treated confidentially.

Dr. Margarete Hubrath has been active nationally and internationally as a trainer, consultant, and coach in the academic field since 2001 after 12 years of research, teaching, and committee work at various academic institutions. She is a certified coach for individuals and groups (ISP/DGFC) and founder of uni-support / Institut für Hochschulberatung.
