

RESEARCH CAREER DAY 2025

Participating Researchers from University Alliance Ruhr

We have invited researchers from several research areas offering a broad range of perspectives from various academic fields. Please understand that it is not possible to cover all research fields or to delve into each field in detail in this event.

[Jun.-Prof. Dr. Jasmin Wrobel](#)

Ibero-Romance Cultural Studies, Philology (Ruhr-Universität Bochum): After completing her doctorate in 2019, she remained at Freie Universität Berlin as a Research-Track Postdoc for an additional 3.5 years. Subsequently, she stayed for 10 months as a Marie Curie Postdoctoral Fellow at the University of Manchester (GB). In 2023, she was appointed to a Junior Professorship at Ruhr-Universität Bochum.

[Jun.-Prof. Dr. Andrea Kirsch](#)

Materials Chemistry, Chemistry and Biochemistry (Ruhr-Universität Bochum): She received her doctorate from the University of Bremen in 2018. With an independent DFG fellowship, she moved to the University of Copenhagen in 2019, where she stayed for five years as a postdoc. After receiving the NRW Returning Scholars Grant she has been appointed to a Junior Professorship in 2025 at Ruhr-Universität Bochum.

[Dr. Gerrit Neu](#)

Structural Mechanics, Civil and Environmental Engineering (Ruhr-Universität Bochum): He obtained his doctorate in 2023 from Ruhr-Universität Bochum and has since been conducting research as a Postdoc there. In 2025, he began leading a project within a Collaborative Research Center (SFB) in the Engineering Sciences at Bochum.

[Prof. Dr. i.V. Nicolai Moos](#)

Geoinformatics, Remote Sensing, and Cartography (University of Applied Sciences): He completed his doctorate at the Faculty of Geosciences at Ruhr-Universität Bochum. Following his doctorate, he spent ten years as a Postdoc, first in the Geo-Remote Sensing group (2014–2023) and later in the Interdisciplinary Geoinformation Sciences group (2023–2024) at Ruhr-Universität Bochum. Since 2024, he is appointed interim Professor of Geoinformation at the Department of Geodesy at University of Applied Sciences Bochum.

... We'll have more researchers joining the event.
